# ABOUT OUR CREATIVE BUSINESS

We're Colour Co, a small creative workshop business creating fun, colourful and memorable creative experiences in Perth.

Colour Co offers a unique catalog of things to make and create, to take home and be proud of.

With paint and sips plus craft, clay, and so much more the vibes are always on point. Our workshops feature bright pastels, bold colours and plenty of good tunes to get you in the creative zone.

At each workshop our experienced instructors will give you step-by-step guidance to help you create a beautiful piece that you're proud to take home, even if you've never painted before! Colour Co workshops can run for 30 minutes to 3 hours and always include all materials, and one on one support.

A little bit different – we make space for fun, colour and big creative ideas. Focused on our guests (that's you!) our instructors are always there to provide you with a memorable workshop experience, be your cheerleader and your #1 supporter.

We're so happy you're interested in collaborating on a workshop with us. Below are a few ideas of what we can offer.

If you have a specific creative workshop in mind please let us know as we are more than happy to work with you to bring your ideas to life.
